delivering the better brands better

Providing safety equipment and PPE is vital for maintaining a safe workplace.

Ensuring it is available to staff in good condition is also mandatory.

Unlimited Spaces' safety products are designed for industry, and cover a wide range of applications - from dispensing PPE and storing safety equipment, to safety workstations for Supervisors and OHS Reps - from small businesses to large corporates.

Talk to your Amare Representative about these products, or a customised solution.

Wall-mounted PPE Dispensers (4-bin shown)

- Provides a flexible approach to storing and dispensing PPE
- Large range of sizes and options available in 2, 3 or 4-bin models
- Low profile does not intrude on workplace walkways
- Clear view of contents - store extra supplies securely
- Dispense several PPE items from the one convenient location
- Reflective safety border highlights PPE location
- Suitable for wet areas such as food plants

Safety Space OHS Workstation™

- Centralise workplace Health and Safety activities
- Standardise safety processes across departments or sites
- Display emergency response procedures and store critical First Aid equipment or PPE
- Hygienic First Aid facility with pull-out worksurface

Designed to meet industry needs, the Safety Space™ provide busy OHS officers with the necessary tools to efficiently and effectively manage their safety responsibilities.

Conduct safety training, display meeting minutes, and securely store essential safety equipment.

The Safety Space™ OHS workstation features on-board power and lighting!

STOP Red Safety Cabinets

- Store safety equipment and expensive supplies
- Clear, shatterproof doors can be locked or clipped shut
- STOP Red laminate stands out in the workplace
- Choose from fixed or adjustable shelves, drawers and hooks
- Customise the height, width and depth

Data Space Industrial Workstation™

- A computer workstation to improve workplace organisation
- Plan, organise and communicate critical information
- Many applications including logistics, quality, engineering
- Customise to fit your computers, printers and peripherals
- Accessories: chairs, document displays, storage options

Emergency Response boards

- Provide a location for emergency plans, information and equipment
- Mount equipment such as hard hats and torches
- Add brochure holders, document displays and phot displays
- Digitally printed to your design, or we will provide a plan
- As small or as large as you require

First Aid Room Cabinet

- Store First Aid supplies and portable modules e.g. burns, blood spill kit
- Locked cupboard for confidential records and prescription drugs
- Pull-out worksurface for conducting first aid or filling in documents
- Acrylic shatter-proof doors fold right back for clear access
- Removable document shelves and storage bins

Lockout Tagout Activity Station™

- Store padlocks, lockout devices, tags & ties
- Display isolation procedures and conduct training
- Manage work permits and defective equipment register
- Communicate active lockouts, work permits and other information
- Master Lock safety series padlocks and lockout devices

Safety Activity Station™

- Induct visitors and contractors, and conduct safety training
- Manage defective plant, issue work permits, inductions or treat injuries
- Display safety information, and alert staff of incidents and injuries
- Share safety meeting minutes - use as a mail box for safety reps
- Manage and investigate incidents

First Aid Activity Station™

- Improve first aid response in a workplace's safety system
- Display procedures and highlight First Aid equipment location
- Combine safety equipment, signs, document displays and storage
- Co-ordinate first aid response and treat injuries
- Options: whiteboards, storage, document displays, signage

Dust-free PPE Dispenser

- Store a full PPE set for a chemical emergency, or welding helmets
- Use as a personal equipment locker for a staff member
- Options for shelving, signage and document displays
- Add a foam dust-seal for very dusty areas
- Cupboard may be locked or unlocked
