

## Amare Safety Health & Safety Policy

Amare Safety is committed to providing a safe work environment for all of our employees and visitors. Safety is considered by Senior Management to be an integral and vital part of work performance.

Managers and Supervisors will consider the safety and health factors in all activities performed by their personnel and will plan activities in such a manner as to avoid accidents. The direct responsibility for the safety of an operation will rest with the Supervisor of that operation.

Work practices will be continually monitored and reviewed to enhance ongoing safety performance. Prompt action will be taken to eliminate unsafe work conditions and practices. Managers will ensure that their employees are adequately trained and are competent to perform their work safely.

All employees are required to work safely and must wear protective clothing and equipment in areas designated by management. Employees are required to immediately report accidents and unsafe conditions to their immediate Supervisor

All visitors to Amare Safety shall comply with all safety instructions and rules.
